# PRODUCTS AND SERVICES

## ALIBABA CLOUD

**Alibaba Cloud** provides a comprehensive, reliable cloud computing platform that offers a range of services and features tailored to meet the diverse needs of businesses and developers. The company has an extensive network of data centers located around the world, which allows it to effectively serve customers in various

regions. **Alibaba Cloud** operates 88 availability zones in 29 regions, delivering low latency and high availability to users. The company offers a comprehensive range of cloud computing services to suit various needs.

# PRODUCTS AND SERVICES

## MAIN ACTIVITIES:

### COMPUTING

- Cloud servers
  - Elastic Compute Service
  - CloudBox
  - Compute Nest
  - Dedicated Host
  - ECS Bare Metal Instance
  - VUUYING Workspace (EDS)
  - Elastic GPU Service
  - Simple Application Server
  - Auto Scaling
  - Alibaba Cloud VMware Service
- HPC
  - Batch Compute
  - Elastic High Performance Computing
  - Super Computing Cluster
- Edge computing
  - Edge Node Service
  - Edge Network Acceleration
- Serverless solutions
  - Function Compute
  - Serverless App Engine
- Alibaba Cloud Linux operating system

### CONTAINER SERVICES

- Cloud server
- Container Service for Kubernetes (ACK)
- Container Registry
- Service Mesh
- Distributed Cloud Container Platform for Kubernetes (ACK One)
- Container Service for Kubernetes Serverless
- Elastic Container Instance

### STORAGE

- Essential Storage Service
  - Block Storage
  - Object Storage Service (OSS)

- File Storage NAS
- Cloud Parallel File Storage (CPFS)
  - Tablestore
- Storage Capacity Unit
- Storage Data Service
  - Simple Log Service
  - Cloud Backup
  - Drive and Photo Service
- Data Transport & Tools
  - Data Transport
  - Cloud Storage Gateway
- Hybrid Cloud Storage
  - Hybrid Cloud Storage
  - Hybrid Cloud Distributed Storage

### NETWORKING & CDN

- Cloud Network
  - Server Load Balancer
  - Elastic IP Address
  - Cloud Data Transfer
  - Data Transfer Plan
  - Virtual Private Cloud (VPC)
  - NAT Gateway
  - Network Intelligence Service (NIS)
  - PrivateLink
  - Alibaba Cloud DNS
  - PrivateZone
    - Global Traffic Manager
- Cross Region Network
  - Cloud Enterprise Network (CEN)
  - Global Accelerator
  - Transit Router
- CDN
  - CDN
  - DCDN
- Hybrid Cloud Network
  - Express Connect
  - Smart Access Gateway
  - VPN Gateway

### SECURITY

- Cloud Security
  - Anti-DDoS
  - Bastionhost
  - Cloud Firewall
  - Security Center
  - Web Application Firewall (WAF)
- Security Service
  - Managed Security Service
  - Penetration Test
- Data Security
  - Certificate Management Service
    - Cloud Hardware Security Module (HSM)
  - Key Management Service
  - Data Security Center (Original SDDP)
  - Identity Security (IDaaS)
  - Resource Access Management (RAM)
- Business Security
  - ID Verification
  - Fraud Detection
  - Content Moderation
  - CAPTCHA

### MIDDLEWARE

- Micro Services Tools & Platform
  - Application High Availability Service
  - Enterprise Distributed Application Service
  - Microservices Engine (MSE)
  - Service Mesh
- ApsaraMQ
  - ApsaraMQ for Confluent
  - ApsaraMQ for Kafka
  - ApsaraMQ for MQTT
  - ApsaraMQ for RabbitMQ

- ApsaraMQ for RocketMQ
- Message Service (MNS)
- Applications Integration
  - EventBridge
- Observability
  - Application Real-Time Monitoring Service (ARMS)
  - Managed Service for Grafana
  - Managed Service for OpenTelemetry
  - Managed Service for Prometheus

### DATABASE

- Relational Database
  - Application High Availability Service
  - Enterprise Distributed Application Service
  - Microservices Engine (MSE)
  - Service Mesh
- ApsaraMQ
  - PolarDB for MySQL
  - PolarDB for PostgreSQL
  - PolarDB for Xscale
  - ApsaraDB RDS for MySQL
  - ApsaraDB RDS for PostgreSQL
  - ApsaraDB RDS for SQL Server
  - ApsaraDB RDS for MariaDB
- NoSQL Database
  - ApsaraDB for Redis
  - Tair
  - Lindorm
  - ApsaraDB for MongoDB
  - ApsaraDB for Hbase
  - Time Series Database for InfluxDB®
- Data Warehouse
  - AnalyticDB for MySQL
  - AnalyticDB for PostgreSQL
  - ApsaraDB for ClickHouse
  - ApsaraDB for SelectDB
- Database Management Tools
  - Data Transmission Service

- Database Backup
- Data Management
- Database Autonomy Service (DAS)

### ANALYTICS COMPUTING

- Data Computing & Analytics
  - Alibaba Cloud Elasticsearch
  - Hologres (Interactive Analytics)
  - MaxCompute
  - Realtime Compute for Apache Flink
- Data Lakes
  - Data Lake Formation
  - E-MapReduce
- Data Application and Visualization
  - DataV
  - Quick BI
- Data Development & Services
  - DataHub
  - Integration
  - Dataphin
  - DataWorks
  - Optimization Solver

### AI & MACHINE LEARNING

- Platform for AI
  - Vector Retrieval Service
  - AIRec
- Machine Translation
  - PAI-Lingjun Intelligent Computing Service
- Intelligent Robot
- Image Search
- Offline Visual Intelligence
- Software Packages
- Intelligent Speech Interaction
- OpenSearch

### MEDIA SERVICES

- ApsaraVideo Live
- ApsaraVideo Media Processing (MPS)

- ApsaraVideo VOD
- Real-Time Streaming

### ENTERPRISE SERVICES & CLOUD COMMUNICATION

- Enterprise Cloud Services
  - CloudQuotation
  - Energy Expert
  - Robotic Process Automation (RPA)
  - SOFASlack
  - ZOLOZ Real ID
  - ZOLOZ SMART AML
- Enterprise Foundation Services
  - Alibaba Cloud DNS
  - Domain Names
  - GoChina ICP Filing Assistant
  - WHOIS
- Blockchain Services PostgreSQL
  - Blockchain as a Service
- Cloud Communication
  - Chat App Message Service
  - Phone Number Verification Service
  - Short Message Service
  - Voice Service

### INTERNET OF THINGS

- Cloud Display
- IoT Edge
- IoT Platform

### SERVERLESS

- Applications Integration
  - CloudFlow
  - EventBridge
  - Message Service (MNS)
- Computing
  - Function Compute
  - Serverless App Engine
  - Container Service for Kubernetes Serverless

### DEVELOPER TOOLS

- API & SDK

- Cloud Shell
- OpenAPI Explorer
- OpenAPI Portal
- Resource Orchestration Service
  - SDK Center
- Apsara DevOps
  - Alibaba Cloud DevOps Pipeline (Flow)
- Development & OM
  - API Gateway
  - EMAS HTTPDNS
  - EMAS Mobile Testing
  - EMAS Superrapp
  - mPaaS

### MIGRATION & O&M MANAGEMENT

- O&M and Monitoring
  - Application Real-Time Monitoring Service (ARMS)
  - CloudMonitor
  - CloudOps Orchestration Service
  - Intelligent Advisor
  - Managed Service for OpenTelemetry
  - Simple Log Service
- Cloud Management
  - ActionTrail
  - Cloud Architect Design Tools (CADT)
  - Cloud Config
  - Cloud Governance Center
  - Quota Center
  - Resource Access Management (RAM)
  - Resource Management
- Backup & Migration
  - Cloud Backup
  - Cloud Migration Hub
  - Database Backup
  - Data Transmission Service

### APSARA STACK

## AMAZON WEB SERVICES

**Amazon Web Services (AWS)** is the world's most comprehensive and broadly adopted cloud, offering over 200 fully featured services from data centers globally. Millions of customers – including the fastest-growing startups, largest enterprises and leading government agencies – are using **AWS** to lower costs, become more agile and innovate faster.

### TOP PRODUCT CATEGORIES:

- ▶ Compute
- ▶ Storage
- ▶ Database
- ▶ Networking & Content Delivery
- ▶ Analytics
- ▶ Machine Learning
- ▶ Security, identification and compliance

# PRODUCTS AND SERVICES

**by Schneider Electric**

## APC by Schneider Electric

**APC's** solutions provide protection against some of the leading causes of downtime, data loss and hardware damage, power problems and temperature. Its comprehensive solutions, designed for both business and home users, improve the manageability, availability and performance of sensitive electronics, networking, communications and industrial equipment of all sizes.

### MAIN ACTIVITIES:

#### UNINTERRUPTIBLE POWER SUPPLIES

- ▶ Back-UPS
- ▶ Smart-UPS
- ▶ Easy UPS
- ▶ GALAXY
- ▶ SYMMETRA

#### POWER DISTRIBUTION

- ▶ Rack power distribution
- ▶ Modular Power Distribution Systems
- ▶ Load switches

#### COOLING

- ▶ Precision air conditioning systems (InRow and perimetric)
- ▶ Chillers and economizers
- ▶ Hot/cold aisle containment systems

#### SAFETY AND ENVIRONMENTAL CONTROL

- ▶ Environmental parameters monitoring systems
- ▶ Access control

#### RACK SYSTEMS

- ▶ Server and network racks
- ▶ Rack mounting components
- ▶ KVM Consoles

#### CONTAINERIZED DATA CENTER

- ▶ Pre-assembled and modular solutions

#### DATA CENTER ENGINEERING INFRASTRUCTURE CONTROL AND MONITORING SYSTEMS

## BITTITAN

**BitTitan** is a provider of cloud migration and data management business process automation solutions for enterprise and mail systems. The company offers MigrationWiz, an industry-leading SaaS solution that enables you to migrate mailboxes, documents, shared folders and a number of other cloud services from a wide range of sources and destinations.

### MAIN ACTIVITIES:

MIGRATIONWIZ SYSTEM FOR FULLY AUTOMATIC MIGRATION OF HUGE DATA  
TO MICROSOFT OFFICE 365/MICROSOFT EXCHANGE

## BLUETTI

**BLUETTI** is a manufacturer of portable power stations, energy storage systems and mobile solar systems with high quality and performance. **BLUETTI** products solve the problems of backup power and power availability anywhere without access to the energy grid. The company's devices can provide autonomous operation and charge laptops, tablets, smartphones, network equipment, electric vehicles, and various household appliances.

### MAIN ACTIVITIES:

- ▶ Portable power stations
- ▶ Expansion battery modules
- ▶ Solar panels
- ▶ Accessories

# Centerm

## CENTERM

Since its founding in 2002, **Centerm** has been focusing on digital transformation solutions for banks and companies with a disparate branch structure. According to IDC analytics company, the **Centerm** brand is one of the top three global manufacturers of remote work equipment, thin and zero clients, along with HP and Dell.

The **Centerm** portfolio includes products for a wide range of virtualization environments to suit companies of all sizes. **Centerm** thin clients provide high performance and efficiency, providing customers with a number of advantages: security, ease of management and reliability. In addition to terminals, **Centerm** also produces a number of other corporate products: mini PCs, monoblocks, software for managing your devices, mobile and payment terminals, as well as self-service terminals for companies in the financial sector.

### MAIN ACTIVITIES:

- ▶ Zero clients
- ▶ Thin clients
- ▶ Mini PC
- ▶ Monoblocks
- ▶ Counters
- ▶ Mobile terminals
- ▶ Self-service terminals
- ▶ Payment terminals

# COMMSCOPE®

## COMMSCOPE

**COMMSCOPE** is the world's largest provider of broadband, enterprise and wireless infrastructure solutions. As a leader in the structured cabling system (SCS) industry, **COMMSCOPE** offers its customers the most advanced cable infrastructure solutions for modern buildings and data centers under the SYSTIMAX and NETCONNECT brands (formerly AMP Netconnect).

### MAIN ACTIVITIES:

- ▶ Components for shielded and unshielded SCS lines Category: 5e, 6, 6A, 7, 7A, 8
- ▶ Components for fiber-optic SCS lines, based on fibers: OM3, OM4, OM5, OS2, OS1a
- ▶ Advanced pre-terminated solutions for copper and fiber optic lines
- ▶ Solutions for organizing high-density cross-connects in data centers: Netpodium, VCM
- ▶ Specialized cable trays for FO lines FGS data centers (FiberGuide System)
- ▶ Specialized high-density cross-sections for fiber optics: FIST, FACT, OMX
- ▶ Automated cable infrastructure administration system imVision

## CONTEG

**CONTEG** is a leading European manufacturer of comprehensive infrastructure solutions for data centers, including server rack systems, precision air conditioning systems, intelligent power distribution units, monitoring systems and cable management systems.

### MAIN ACTIVITIES:

- ▶ Free-standing racks
  - PREMIUM SERVER RF1
  - PREMIUM HOUSING RB1
  - iSEVEN SERVER
  - iSEVEN FLEX SERVER (unassembled version)
  - iSEVEN RI7 series (universal racks)
  - iSEVEN Flex RM7 (unassembled version)
  - OPTIMAL CABLE MANAGEMENT (For high-density copper or optical connections)
- ▶ Open frames
- ▶ Wall-mount & SOHO racks
- ▶ Cooling & ventilation
  - In-row Units
  - Above-rack Units
  - In-rack Units
  - Room Cooling Units
  - Outdoor Units
  - Chillers
  - Ventilation Units
  - Airflow Management
- ▶ Monitoring & security (several management and control systems)
- ▶ Cable management
  - High Density Wire Management
  - Optical Pathway System
  - Management of Metallic Cables
  - Standart Cable Management
- ▶ Rack power distribution units (PDUs)
- ▶ Complete solutions for outdoor
  - Outdoor Cabinets outTEG, WME-O, FSM-O
  - Cooling & heating
- ▶ Complete solutions for industry
  - Wall mount WME enclosures
  - Free-standing enclosures FSM-X, FSE, FSM, FSM-O
  - Cooling & heating

## DIGITUS BY ASSMANN

The German company **ASSMANN** offers its customers a wide range of solutions under the **DIGITUS** brand name. The portfolio includes components for building high-performance copper and fiber-optic structured cabling systems for commercial buildings and data centers, as well as a wide range of peripheral equipment for organizing comfortable and technologically advanced work in a modern office space. The company has been operating in the telecommunications market for over 50 years. Among its customers are organizations of any field of activity around the world – state enterprises, industrial companies, large corporations and individual offices.

### MAIN ACTIVITIES:

- ▶ Equipment for SCS construction
- ▶ Active network equipment
- ▶ Uninterruptible power supplies and portable charging stations
- ▶ Ergonomics of modern office space Digital accessories for PC and home
- ▶ Equipment and accessories for AV systems
- ▶ A wide range of power and information cables, adapters, connectors

## DROPSUITE

**Dropsuite** company specializes in backing up cloud data such as websites, emails. **Dropsuite** products allow you to offer a simple solution for organizing data backup completely based on cloud services. In particular, the Email backup Office 365 product has a convenient integration with the Office 365 service. It will allow you to automate the backup of email and Sharepoint data (including OneDrive) to the **Dropsuite** cloud and, if necessary, not only restore the entire archive, but also find a separate element – a letter or a file from an old archive.

### MAIN ACTIVITIES:

#### OFFICE 365 BACKUP

- Office 365 backup
- Exchange backup
- Sharepoint backup
- Onedrive backup
- Team sites backup

#### G SUITE BACKUP

- G suite gmail backup

#### WEBSITE BACKUP

#### E-MAIL ARCHIVING

#### IMAP POP BACKUP

## ENDPOINT PROTECTOR | by CoSoSys NOW PART OF **netwrix**

## ENDPOINT PROTECTOR BY COSOSYS

**CoSoSys S.R.L.** is a developer of data protection solutions. **CoSoSys'** key product is **Endpoint Protector**, a comprehensive multiplatform all-in-one DLP solution designed for large, medium, and small enterprises. The system eliminates unintentional data leaks, protects against information theft and malware, and offers control over portable devices and storage devices. **Endpoint Protector** has content filtering capabilities for data at rest and in motion, which are based on dictionaries, regular expressions, and machine learning, as well as profiles for data protection regulations such as GDPR, HIPAA, etc.

### MAIN ACTIVITIES:

- ▶ Protecting information, blocking or allowing file transfers
- ▶ Scanning of sensitive data
- ▶ Data encryption during transmission by mail or copying to media
- ▶ Management of USB devices and peripheral ports
- ▶ Control and management of mobile devices
- ▶ Simple cloud-based central management of the entire network

# EnGenius®

## ENGENIUS NETWORKS

**EnGenius Networks** is a manufacturer of state-of-the-art enterprise network equipment specializing in wireless networks. The company has its own manufacturing facilities in Taiwan, where it also manufactures products for Cisco, Extreme, Ruckus, Fortinet and several others. Attractive pricing policy allows the implementation of high-quality, modern solutions with an optimal price/performance ratio.

### MAIN ACTIVITIES:

- ▶ Access points of corporate level of the Wi-Fi 6 and 7 standard
- ▶ Switches with PoE++ support and multi-gigabit ports. With continuous power supply. The built-in point controller for access points does not require additional licensing
- ▶ Free centralized access point management system EzMaster
- ▶ Free cloud management with analytics and visualization extensions

## EXCEL NETWORKING

**Excel Networking** is the number one brand in the SCS market in the UK, offering premium end-to-end infrastructure solutions at an affordable price. The company's staff includes a team of industry experts who ensure that the latest innovations and manufacturing capabilities are implemented to exceed the standards of quality and performance, technical consistency and excellence. All of this, plus a 25-year warranty, makes **Excel Networking** solutions a great option for government, education, finance, and other institutions.

### MAIN ACTIVITIES:

#### COPPER SYSTEMS

- ▶ Category 8
- ▶ Category 7A
- ▶ Category 6A
- ▶ Category 6
- ▶ Category 5e

#### FIBER-OPTIC CABLE SYSTEMS IN BUILDINGS

- ▶ Universal cable and cords OS2, OM2, OM3, OM4, OM5
- ▶ Connectors ST, SC, LC, FC, SC/APC Connectivity
- ▶ Tool for installation and inspection of optical connections

#### ENBEAM MTP SOLUTIONS FOR DATA CENTERS

- ▶ Preterminated high density constructions
- ▶ MTP cassettes and cable trunks OM3, OM4, OM5, OS2
- ▶ Cleaning and inspection tool for MTP/LC/SC connectors

#### FIBER OPTIC SYSTEMS FOR FTTX SEGMENT

- ▶ Micro-cables for blowing OS2 up to 144 fibers
- ▶ Outdoor cables G.657.A2, G.657.B3
- ▶ Ducts/pipes for fiber blowing system 5/7/12/14/16 mm.

- ▶ Splitters, distribution boxes, fiber optic closures

#### CABINETS AND OPEN RACKS "19"

- ▶ Communication (CR)
- ▶ Server (SR)
- ▶ Colocation (CL)
- ▶ Open racks and organizers (OR)

#### POWER DISTRIBUTION UNITS

- ▶ Standard
- ▶ Intelligent
- ▶ Modular
- ▶ Desktop

## GENIE NETWORKS

**Genie Networks** is a leader in traffic analysis and security solutions. With an innovative approach to behavioral traffic analysis (NBA), the company has created a powerful cost-effective solution for collecting and analyzing information, solving problems based on data, and protecting networks from attacks.

Among the company's products, the DPI traffic analyzer, event collection and processing systems, and solutions for traffic management and vulnerability analysis are noteworthy. **Genie Networks** also has experience in integrating its solutions with various network devices and software to ensure maximum efficiency and complexity of the solution.

**Genie Networks** has a customer base in over 40 countries, including major telecommunications companies, banks, government agencies, and large enterprises.

### MAIN ACTIVITIES:

- ▶ GenieATM – In-Depth Traffic Analysis and Instant DDoS Protection
- ▶ GenieATM FLB – Run Your Network Analytics and Security Solutions More Efficiently with Flow Load Balancer
- ▶ GenieATM MSP Server – The One-Stop Managed Service Platform to Enhance Revenue for Service Providers
- ▶ GenieATM Traffic Optimizer – Network Optimization Driven by Smart Traffic Visibility
- ▶ GenieATM Visual Portal – Intuitive, At-a-glance Data Visualizations Tailored to Your Network Demands
- ▶ GenieAnalytics – Smart Network Traffic Exploration by Big Data-Powered Analytics
- ▶ GenieAnalytics Deep Trace – End-to-End Traffic Intelligence from OTT Service, Delivery Network, to Subscriber Identity

## HCS CABLING SYSTEMS

**HCS Cabling Systems** specializes in the development of data cables for SCS. The company's products are made to build reliable and durable cabling systems backed by the **HCS Century Lifetime Warranty**, covering both components and network performance. **HCS Cabling Systems** provides a full range of technical solutions from which customers can choose the right ones for their specific needs while obtaining the best value for money.

The **HCS Cabling Systems** portfolio includes network cabling solutions based on innovative voice, video and data transmission products, a wide range of copper and fiber optic UTP, FTP, SFTP and S-STP products, including backbone and horizontal cables, switching cords, connecting equipment and other products. All components are designed and manufactured in full compliance with all international industry standards.

### MAIN ACTIVITIES:

- ▶ CAT copper cabling solutions. 5e, 6, 6A, 7
- ▶ OM3, OM4, OS2 Fiber optic cable solutions
- ▶ Copper and fiber solutions for data centers
- ▶ 19" Cabinets and racks
- ▶ Phy-FiXX Copper and Fiber Managed Cabling Solutions
- ▶ Tools and accessories for cable communication systems installation

## HIRSCH

**Hirsch, Inc.** is a developer of security and identification solutions. The Identiv portfolio includes solutions for physical and logical access control, video analytics and data analytics, contact and contactless smart card readers and reader modules, and RFID-enabled applications. The company's products allow you to protect the entire range of company assets: from the network perimeter to desktop access and from physical objects to IoT devices.

**Hirsch** solutions are used in a wide range of industries: government, corporate, consumer, education, healthcare, banking, retail and transportation. The company's products are manufactured in a manner consistent with the efficient use of resources and materials, including the protection and preservation of the natural environment.

### MAIN ACTIVITIES:

#### PHYSICAL ACCESS AND VIDEO CONTROL

- ▶ Access Control as a Service (ACaaS)
- ▶ Hardware
  - Hirsch hardware
  - physical access readers
- ▶ Software
  - Hirsch Velocity Software
  - Identiv Connected Physical Access Manager (ICPAM)
- ▶ Software-Driven Architecture
  - Freedom Access Control
  - Liberty Access Control
- ▶ Integrated Systems
- ▶ Telephone entry systems
  - Enterphone Cube

- Enterphone iQ
- Enterphone 19
- Enterphone iQ
- Enterphone™ Kiosk
- ▶ Video and data analytics

#### LOGICAL ACCESS CONTROL

- ▶ Smart Card Readers
  - contact

- contactless
- mobile
- ▶ uTrust tokens
- ▶ Applications
- ▶ OEM modules

#### RFID AND NFC SOLUTIONS

## IDEMIA

**IDEMIA** specializes in biometrics, identity verification and digital security. When developing solutions, the company relies on natural, reliable, and persistent features for identity verification: the body's own biometric data, including face, iris, and fingerprints. **IDEMIA** uses proven artificial intelligence (AI) and deep learning algorithms in its products to improve the performance of biometric identification and authentication.

MAIN ACTIVITIES:

BIOMETRIC READERS

## JIANGSU UNITED POWER FRIEND TECHNOLOGY

**Jiangsu United Power Friend Technology** specializes in the design and manufacture of generator sets. The company's solution portfolio includes open and silent type diesel, gasoline, gas generator sets, container generators, automobile generators, ship generators, etc. **Jiangsu United Power Friend Technology** products are highly reliable, have long service life and are used in various industries.

### MAIN ACTIVITIES:

- ▶ Diesel generators
- ▶ Silent generators
- ▶ Portable generators
- ▶ Marine diesel generators
- ▶ High power diesel generators
- ▶ Iveco diesel generators
- ▶ Cummins diesel generators
- ▶ Perkins diesel generators
- ▶ Yanmar diesel generators
- ▶ Lovol generators
- ▶ Deutz generators
- ▶ Mobile lighting towers
- ▶ Brushless generators
- ▶ High performance diesel engines
- ▶ Gas generators

## NEXCONEC

**Nexconec** is a global leader in high-performance structured cabling systems. **Nexconec** develops high-density, low-loss, pre-terminated fiber optic cabling solutions to support data center infrastructure. The company's products are custom-built and tailored to specific customer projects and operating conditions. With its ISO-9001-certified manufacturing facilities, **Nexconec** produces high-quality products at minimal cost and maximum benefit to its customers.

### MAIN ACTIVITIES:

#### FIBER OPTIC SYSTEMS

- ▶ Patch Cords
- ▶ Multi-Fiber Assemblies
- ▶ MTP/MPO Assemblies
- ▶ Cables
- ▶ Rack Mount Enclosures
- ▶ MTP/MPO Modules and Panels
- ▶ Splitters and WDM
- ▶ Wall Mount Enclosures
- ▶ FTTH Boxes

- ▶ Outdoor Enclosures
- ▶ Fiber Accessories
- ▶ Racks and Cabinets
- ▶ Fiber Testing and Cleaning
- ▶ Outdoor ODVA

#### COPPER SYSTEMS

- ▶ Cables
- ▶ Patch Cords
- ▶ Power Supplies
- ▶ Patch Panels
- ▶ Connectors

#### ACTIVE COMPONENTS

- ▶ Media Converters
- ▶ SFP Transceivers
- ▶ SFP+ Transceivers
- ▶ SFP28 Transceivers
- ▶ XFP Transceivers
- ▶ 3G Video SFP
- ▶ QSFP+ Transceivers
- ▶ QSFP28 Transceivers
- ▶ Active Optical Cables (AOC)
- ▶ Direct Attach Copper Cables (DAC)

# NEXSAN

## NEXSAN

**Nexsan** is a manufacturer of highly reliable, cost-effective data warehouses tailored to specific requirements and use cases. **Nexsan** products transform traditional storage systems into solutions that deliver business value to customers with additional cloud services, data migration, and unrivaled backup capabilities to protect backups from malware.

### MAIN ACTIVITIES:

- UNITY Unified 3rd generation storages
- E-SERIES High Density and Capacity Storage Systems
- BEAST Elite High Density Storage Systems
- ASSUREON secure storages
- All-Flash NVMe VEXATA High performance arrays

## PEPLINK

**Peplink** is a leading SD-WAN technology provider and a developer of innovative 4G and 5G LTE routers and modems. Peplink provides a full range of solutions for building secure connections, intelligent load balancing, and access to SaaS services for the corporate, industrial and government sectors. The company's solutions are used in a wide variety of industries – hotel business, healthcare, education, trade, financial sector, construction, transportation, etc.

### MAIN SOLUTIONS:

- ▶ Enterprise routers
- ▶ Mobile routers
- ▶ Routers for small business and home office
- ▶ Enterprise-grade mobile solutions
- ▶ Wi-Fi and PoE switches
- ▶ Antennas and accessories

## QNAP

**QNAP Systems Inc.** is a leading manufacturer in storage, computing and networking. **QNAP** offers high-quality network-attached storage (NAS), network (network switches) and smart video (QVR Pro) products based on the principles of usability, high security and flexible scalability. **QNAP** is committed to providing end-to-end solutions, from software development, hardware design to in-house manufacturing. **QNAP's** own factory with complete production lines is certified to ISO 9001 Quality Management Systems, ISO 14001 Environmental Management Systems, ISO 45001 Occupational Health and Safety Management Systems, and ISO 27001 Information Security Management Systems.

### MAIN ACTIVITIES:

#### NETWORK-ATTACHED STORAGE (NAS)

- For the corporate segment
- For small and medium enterprises
- For home and office

#### QVR PRO IP DVRS

- For the corporate segment
- For small and medium enterprises
- For home and office

#### ETHERNET NETWORK SWITCHES

- Rack Mount
- Desktop

#### APPLICATIONS

- For network storages
- For IP DVRS

#### COMPONENTS

## SANEBOX

**SaneBox** is a developer of email filtering software. This software helps you to manage email by filtering messages that it considers unimportant into a folder for further processing and allowing you to spend much less time reading them. The solution integrates with IMAP and Exchange Web Services email accounts, works with all email services, and doesn't require any applications to be installed.

The image shows a comparison of an email inbox before and after using SaneBox. On the left, labeled "Before SaneBox", the inbox is cluttered with 13,678 emails. The list includes "Boss", "Annoying Marketer", "Newsletter I never read", "Spouse", "Important Partner", "Political campaign", and "Facebook notification". On the right, labeled "With SaneBox", the inbox is clean with only 5 emails. The list includes "Boss", "Spouse", "Important Partner", "Newsletter I actually read", and "Investor". Below the comparison, a dark blue banner states "Any Email Client, Service or Device" and "SaneBox works anywhere you check email". At the bottom of the banner are icons for various email clients and services: Outlook, iCloud, Gmail, Office 365, AOL, Exchange, iCloud, and Apple Mail.

13,678

With SaneBox

Any Email Client, Service or Device  
SaneBox works anywhere you check email

MAIN ACTIVITIES:

SANEBOX EMAIL FILTERING SERVICE

## SIEMON

**Siemon** is a world-renowned designer and manufacturer of network cables, interconnecting devices, passive interconnecting equipment and structured cabling systems for the telecommunications industry. **Siemon's** portfolio includes Category 5e, 6 and 7 copper and fiber optic cabling systems, as well as high-speed networking devices for data centers, healthcare facilities, the automotive industry and other market segments.

### MAIN ACTIVITIES:

- ▶ Copper cabling systems
- ▶ Fiber optic cabling systems
- ▶ Patch panels and adapters
- ▶ Racks and cable management
- ▶ Solutions for automated building infrastructure management: Intelligent Buildings
- ▶ Secure industrial connections
- ▶ High Speed Interconnects (HSI)
- ▶ Tools and testers
- ▶ Connection blocks
- ▶ Fiber optic routing systems

## TECNOWARE

**Tecnoware** is an Italian company that designs, manufactures and maintains uninterruptible power supplies that provide uninterrupted electric power supply for personal computers, electro-medical and industrial equipment, data centers, network and telecommunication systems. All **Tecnoware** equipment complies with EU standards and the requirements of the modern world. The company maintains a course of continuous investment in innovation and far-sighted strategic planning.

Tecnoware's portfolio includes line-interactive and synchronous line-interactive UPSs, single and three-phase online UPSs, electrical stabilizers, generators, transformers, batteries and other UPS accessories. The company also offers telecommunication cabinets for floor and wall mounting, power distributors and a range of consumer accessories – chargers for laptops and mobile phones, power banks, fans, etc.

### MAIN ACTIVITIES:

- ▶ Line-Interactive UPS
- ▶ Sine wave line-interactive UPS
- ▶ Single-phase online UPS
- ▶ Three-phase online UPS
- ▶ Electricity stabilizers
- ▶ Generators
- ▶ Transformers
- ▶ Batteries
- ▶ UPS accessories
- ▶ Cabinets and accessories
- ▶ Chargers and power banks

# Unicon

## UNICON

**Unicon** is a developer of infrastructure management software for user systems. Unicon offers solutions for corporate management of workstations and thin clients. The company's products will be an excellent choice for both small companies and organizations with hundreds or thousands of endpoints.

### MAIN ACTIVITIES:

- eLux operating system for Linux-based x86 endpoints
- Scout endpoint management system
- Integrated Scout Cloud Gateway (SCG) solution for connecting endpoint devices operating in remote, distributed environments

# Azerbaijan

The MUK Group of Companies started its activity in Azerbaijan in August 2015. The company's portfolio currently includes contracts with manufacturers such as 3Dconnexion, A10, ACTi, Adtran, Advantech, AEG, Altaro, Ametek, APC, AppDynamics, Arista, AudioCodes, Autodesk, Avigilon, Axis, BENQ, Biotech, BIRR, Bitdefender, BitTitan, Black Box, Bluetti, Brickcom, Centerm, Check Point, Cloudbric (Penta Security), Commscope, Conteg, DDN, Dell Technologies, Delphix, Delta, Dropsuite, Elevêo, Endpoint Protector by CoSoSys, EnGenius, Excel Networking, Extreme Networks, Fortinet, Genie Networks, Grandstream, H3C, HCL, HCS Cabling Systems, Hirsch, Hitachi Vantara, IBM, Idemia, iGuana, Image Access, InFocus, Infortrend, Jabra, Juniper Networks, Keenetic, Kingston, Kstar, Legrand, Lenovo, Leviton, Matrix (Guangdong Matrix New Energy), Microsoft, Minkels, Monbat, Nakivo, NetApp, Netwrix, Nexconec, Nexsan, Nvidia, Oracle, PacketLight, Palo Alto Networks, Peplink, QNAP, Radware, Ranorex, Raritan, RCG Power, RSA Security, Ruckus (CommScope), SaneBox, Siemon, Sopar, StarWind, Symantec, Tecnoware, TitanHQ, Unicon, Veeam, Veritas, Vertiv, VMware, YSoft, Zimbra (Synacor).
