PRODUCTS AND SERVICES

ALIBABA CLOUD

Alibaba Cloud provides a comprehensive, reliable cloud computing platform that offers a range of services and features tailored to meet the diverse needs of businesses and developers. The company has an extensive network of data centers located around the world, which allows it to effectively serve customers in various

regions. **Alibaba Cloud** operates 88 availability zones in 29 regions, delivering low latency and high availability to users. The company offers a comprehensive range of cloud computing services to suit various needs.

PRODUCTS AND SERVICES

MAIN ACTIVITIES:

COMPUTING

- Cloud servers
 - Elastic Compute Service
 - CloudBox
 - Compute Nest
 - Dedicated Host
 - ECS Bare Metal Instance
 - VUUYING Workspace (EDS)
 - Elastic GPU Service
 - Simple Application Server
 - Auto Scaling
 - Alibaba Cloud VMware Service
- HPC
 - Batch Compute
 - Elastic High Performance Computing
 - Super Computing Cluster
- Edge computing
 - Edge Node Service
 - Edge Network Acceleration
- Serverless solutions
 - Function Compute
 - Serverless App Engine
- Alibaba Cloud Linux operating system

CONTAINER SERVICES

- Cloud server
- Container Service for Kubernetes (ACK)
- Container Registry
- Service Mesh
- Distributed Cloud Container Platform for Kubernetes (ACK One)
- Container Service for Kubernetes Serverless
- Elastic Container Instance

STORAGE

- Essential Storage Service
 - Block Storage
 - Object Storage Service (OSS)

- File Storage NAS
- Cloud Parallel File Storage (CPFS)
 - Tablestore
- Storage Capacity Unit
- Storage Data Service
 - Simple Log Service
 - Cloud Backup
 - Drive and Photo Service
- Data Transport & Tools
 - Data Transport
 - Cloud Storage Gateway
- Hybrid Cloud Storage
 - Hybrid Cloud Storage
 - Hybrid Cloud Distributed Storage

NETWORKING & CDN

- Cloud Network
 - Server Load Balancer
 - Elastic IP Address
 - Cloud Data Transfer
 - Data Transfer Plan
 - Virtual Private Cloud (VPC)
 - NAT Gateway
 - Network Intelligence Service (NIS)
 - PrivateLink
 - Alibaba Cloud DNS PrivateZone
 - Global Traffic Manager
- Cross Region Network
 - Cloud Enterprise Network (CEN)
 - Global Accelerator
- CDN
 - CDN
 - DCDN
- Hybrid Cloud Network
 - Express Connect
 - Smart Access Gateway
 - VPN Gateway

SECURITY

- Cloud Security
 - Anti-DDoS
 - Bastionhost
 - Cloud Firewall
 - Security Center
 - Web Application Firewall (WAF)
- Security Service
 - Managed Security Service
 - Penetration Test
- Data Security
 - Certificate Management Service
 - Cloud Hardware Security Module (HSM)
 - Key Management Service
 - Data Security Center (Original SDDP)
 - Identity Security (IDaaS)
 - Resource Access Management (RAM)
- Business Security
 - ID Verification
 - Fraud Detection
 - Content Moderation
 - CAPTCHA

MIDDLEWARE

- Micro Services Tools & Platform
 - Application High Availability Service
 - Enterprise Distributed Application Service
 - Microservices Engine (MSE)
 - Service Mesh
- ApsaraMQ
 - ApsaraMQ for Confluent
 - ApsaraMQ for Kafka
 - ApsaraMQ for MQTT
 - ApsaraMQ for RabbitMQ

- ApsaraMQ for RocketMQ
- Message Service (MNS)
- Applications Integration
 - EventBridge
- Observability
 - Application Real-Time Monitoring Service (ARMS)
 - Managed Service for Grafana
 - Managed Service for OpenTelemetry
 - Managed Service for Prometheus

DATABASE

- Relational Database
 - Application High Availability Service
 - Enterprise Distributed Application Service
 - Microservices Engine (MSE)
 - Service Mesh
- ApsaraMQ
 - PolarDB for MySQL
 - PolarDB for PostgreSQL
 - PolarDB for Xscale
 - ApsaraDB RDS for MySQL
 - ApsaraDB RDS for PostgreSQL
 - ApsaraDB RDS for SQL Server
 - ApsaraDB RDS for MariaDB
- NoSQL Database
 - ApsaraDB for Redis
 - Tair
 - Lindorm
 - ApsaraDB for MongoDB
 - ApsaraDB for Hbase
 - Time Series Database for InfluxDB®
- Data Warehouse
 - AnalyticDB for MySQL
 - AnalyticDB for PostgreSQL
 - ApsaraDB for ClickHouse
 - ApsaraDB for SelectDB
- Database Management Tools
 - Data Transmission Service

- Database Backup
- Data Management
- Database Autonomy Service (DAS)

ANALYTICS COMPUTING

- Data Computing & Analytics
 - Alibaba Cloud Elasticsearch
 - Hologres (Interactive Analytics)
 - MaxCompute
 - Realtime Compute for Apache Flink
- Data Lakes
 - Data Lake Formation
 - E-MapReduce
- Data Application and Visualization
 - DataV
 - Quick BI
- Data Development & Services
 - DataHub
 - Integration
 - Dataphin
 - DataWorks
 - Optimization Solver

AI & MACHINE LEARNING

- Platform for AI
 - Vector Retrieval Service
 - AIRec
- Machine Translation
 - PAI-Lingjun Intelligent Computing Service
- Intelligent Robot
- Image Search
- Offline Visual Intelligence
- Software Packages
- Intelligent Speech Interaction
- OpenSearch

MEDIA SERVICES

- ApsaraVideo Live
- ApsaraVideo Media Processing (MPS)

- ApsaraVideo VOD
- Real-Time Streaming

ENTERPRISE SERVICES & CLOUD COMMUNICATION

- Enterprise Cloud Services
 - CloudQuotation
 - Energy Expert
 - Robotic Process Automation (RPA)
 - SOFASlack
 - ZOLOZ Real ID
 - ZOLOZ SMART AML
- Enterprise Foundation Services
 - Alibaba Cloud DNS
 - Domain Names
 - GoChina ICP Filing Assistant
 - WHOIS
- Blockchain Services PostgreSQL
 - Blockchain as a Service
- Cloud Communication
 - Chat App Message Service
 - Phone Number Verification Service
 - Short Message Service
 - Voice Service

INTERNET OF THINGS

- Cloud Display
- IoT Edge
- IoT Platform

SERVERLESS

- Applications Integration
 - CloudFlow
 - EventBridge
 - Message Service (MNS)
- Computing
 - Function Compute
 - Serverless App Engine
 - Container Service for Kubernetes Serverless

DEVELOPER TOOLS

- API & SDK

- Cloud Shell
- OpenAPI Explorer
- OpenAPI Portal
- Resource Orchestration Service
 - SDK Center
- Apsara DevOps
 - Alibaba Cloud DevOps Pipeline (Flow)
- Development & OM
 - API Gateway
 - EMAS HTTPDNS
 - EMAS Mobile Testing
 - EMAS Superrapp
 - mPaaS

MIGRATION & O&M MANAGEMENT

- O&M and Monitoring
 - Application Real-Time Monitoring Service (ARMS)
 - CloudMonitor
 - CloudOps Orchestration Service
 - Intelligent Advisor
 - Managed Service for OpenTelemetry
 - Simple Log Service
- Cloud Management
 - ActionTrail
 - Cloud Architect Design Tools (CADT)
 - Cloud Config
 - Cloud Governance Center
 - Quota Center
 - Resource Access Management (RAM)
 - Resource Management
- Backup & Migration
 - Cloud Backup
 - Cloud Migration Hub
 - Database Backup
 - Data Transmission Service

APSARA STACK

AMAZON WEB SERVICES

Amazon Web Services (AWS) is the world's most comprehensive and broadly adopted cloud, offering over 200 fully featured services from data centers globally. Millions of customers – including the fastest-growing startups, largest enterprises and leading government agencies – are using **AWS** to lower costs, become more agile and innovate faster.

TOP PRODUCT CATEGORIES:

- ▶ Compute
- ▶ Storage
- ▶ Database
- ▶ Networking & Content Delivery
- ▶ Analytics
- ▶ Machine Learning
- ▶ Security, identification and compliance

AMETEK

AMETEK is a leading global manufacturer of electronic instruments and electromechanical devices. **AMETEK's** portfolio includes UPSs for medical equipment with international certification, process monitoring, testing, calibration, data collection instruments for manufacturing, aerospace, electric power and other industries.

MAIN ACTIVITIES:

- ▶ Uninterruptible AC Power supplies
- ▶ Uninterruptible High Power DC Power Supplies
- ▶ Solutions for the medical industry

APPDYNAMICS

AppDynamics offers one of the most powerful application monitoring solutions in a distributed infrastructure. The **AppDynamics** software platform allows to collect performance data for various applications, servers, databases and other critical IT systems from all infrastructure nodes. It has the tools to proactively monitor, manage and optimize the most complex IT infrastructures. In case of applications bugs, the platform automatically warns about the necessity of urgent intervention of technical specialists to fix them. Real-time monitoring increases control over the capacity of applications, infrastructure components, and how applications are perceived by end users.

MAIN ADVANTAGES OF THE PRODUCT:

- ▶ Complete overview of On-premise architecture along with Cloud environments
- ▶ Performance optimization in an increasingly dynamic and fragmented technology landscape
- ▶ Prioritization of the most important issues before they affect business processes
- ▶ Maintaining business continuity during technological change with a platform that reduces noise and maintains fast and efficient operation
- ▶ Data collection and analysis across the entire stack
- ▶ Detailed visualization that helps to take action and improve user experience and business results
- ▶ Configuration just in a few minutes with Smart Code Instrumentation
- ▶ AppDynamics is constantly updated with an evolving ecosystem of industry solutions ADO.NET, Docker, Apache, Node.js, Python, AngularJS, and more

avigilon™

AVIGILON

Avigilon defines the future of security systems by developing innovative HD video surveillance solutions with built-in analytics. The company is taking video surveillance to the next level with the fastest incident search tools, superior image quality, the finest built-in analytics and industry-leading **Avigilon Control Center** software with HDSM technology.

MAIN ACTIVITIES:

VIDEO SURVEILLANCE SYSTEMS WITH VIDEO ANALYTICS

- ▶ Self-learning neural network technologies
- ▶ Software
- ▶ High-definition cameras with a resolution of up to 10K (61 MP)
- ▶ Recording devices
- ▶ Encoders
- ▶ Accessories

ACCESS CONTROL

3RD PARTY SYSTEMS INTEGRATIONS

PRODUCTS AND SERVICES

BITDEFENDER

Bitdefender is a developer of anti-virus, anti-spam and firewall systems characterized by high performance and efficiency with low resource requirements. As a global security technology company, **Bitdefender** supplies its solutions to more than 100 countries worldwide through a partner network of distributors and resellers. Since 2001, **Bitdefender** has been providing award-winning business and consumer protection solutions and is a leading security provider for virtualization and the cloud technologies.

MAIN ACTIVITIES:

SECURITY PACKAGES

- ▶ GravityZone Business Security Enterprise
- ▶ GravityZone Business Security Premium
- ▶ GravityZone Business Security
- ▶ GravityZone Security for MSPs

SECURITY AS A SERVICE

- ▶ Managed Detection and Response
- ▶ Managed Detection and Response Services for MSPs

SECURITY PRODUCTS

- ▶ GravityZone XDR
- ▶ Cloud and Server Security
- ▶ Security for Containers
- ▶ GravityZone Security for Email
- ▶ Endpoint Detection and Response
- ▶ GravityZone Security for Workstations
- ▶ GravityZone Security for Mobile Devices
- ▶ GravityZone Patch Management
- ▶ GravityZone Storage Security

BITTITAN

BitTitan is a provider of cloud migration and data management business process automation solutions for enterprise and mail systems. The company offers MigrationWiz, an industry-leading SaaS solution that enables you to migrate mailboxes, documents, shared folders and a number of other cloud services from a wide range of sources and destinations.

MAIN ACTIVITIES:

MIGRATIONWIZ SYSTEM FOR FULLY AUTOMATIC MIGRATION OF HUGE DATA
TO MICROSOFT OFFICE 365/MICROSOFT EXCHANGE

BLUETTI

BLUETTI is a manufacturer of portable power stations, energy storage systems and mobile solar systems with high quality and performance. **BLUETTI** products solve the problems of backup power and power availability anywhere without access to the energy grid. The company's devices can provide autonomous operation and charge laptops, tablets, smartphones, network equipment, electric vehicles, and various household appliances.

MAIN ACTIVITIES:

- ▶ Portable power stations
- ▶ Expansion battery modules
- ▶ Solar panels
- ▶ Accessories

Centerm

CENTERM

Since its founding in 2002, **Centerm** has been focusing on digital transformation solutions for banks and companies with a disparate branch structure. According to IDC analytics company, the **Centerm** brand is one of the top three global manufacturers of remote work equipment, thin and zero clients, along with HP and Dell.

The **Centerm** portfolio includes products for a wide range of virtualization environments to suit companies of all sizes. **Centerm** thin clients provide high performance and efficiency, providing customers with a number of advantages: security, ease of management and reliability. In addition to terminals, **Centerm** also produces a number of other corporate products: mini PCs, monoblocks, software for managing your devices, mobile and payment terminals, as well as self-service terminals for companies in the financial sector.

MAIN ACTIVITIES:

- ▶ Zero clients
- ▶ Thin clients
- ▶ Mini PC
- ▶ Monoblocks
- ▶ Counters
- ▶ Mobile terminals
- ▶ Self-service terminals
- ▶ Payment terminals

COMMSCOPE®

COMMSCOPE

COMMSCOPE is the world's largest provider of broadband, enterprise and wireless infrastructure solutions. As a leader in the structured cabling system (SCS) industry, **COMMSCOPE** offers its customers the most advanced cable infrastructure solutions for modern buildings and data centers under the SYSTIMAX and NETCONNECT brands (formerly AMP Netconnect).

MAIN ACTIVITIES:

- ▶ Components for shielded and unshielded SCS lines Category: 5e, 6, 6A, 7, 7A, 8
- ▶ Components for fiber-optic SCS lines, based on fibers: OM3, OM4, OM5, OS2, OS1a
- ▶ Advanced pre-terminated solutions for copper and fiber optic lines
- ▶ Solutions for organizing high-density cross-connects in data centers: Netpodium, VCM
- ▶ Specialized cable trays for FO lines FGS data centers (FiberGuide System)
- ▶ Specialized high-density cross-sections for fiber optics: FIST, FACT, OMX
- ▶ Automated cable infrastructure administration system imVision

CONTEG

CONTEG is a leading European manufacturer of comprehensive infrastructure solutions for data centers, including server rack systems, precision air conditioning systems, intelligent power distribution units, monitoring systems and cable management systems.

MAIN ACTIVITIES:

- ▶ Free-standing racks
 - PREMIUM SERVER RF1
 - PREMIUM HOUSING RB1
 - iSEVEN SERVER
 - iSEVEN FLEX SERVER (unassembled version)
 - iSEVEN RI7 series (universal racks)
 - iSEVEN Flex RM7 (unassembled version)
 - OPTIMAL CABLE MANAGEMENT (For high-density copper or optical connections)
- ▶ Open frames
- ▶ Wall-mount & SOHO racks
- ▶ Cooling & ventilation
 - In-row Units
 - Above-rack Units
 - In-rack Units
 - Room Cooling Units
 - Outdoor Units
 - Chillers
 - Ventilation Units
 - Airflow Management
- ▶ Monitoring & security (several management and control systems)
- ▶ Cable management
 - High Density Wire Management
 - Optical Pathway System
 - Management of Metallic Cables
 - Standart Cable Management
- ▶ Rack power distribution units (PDUs)
- ▶ Complete solutions for outdoor
 - Outdoor Cabinets outTEG, WME-O, FSM-O
 - Cooling & heating
- ▶ Complete solutions for industry
 - Wall mount WME enclosures
 - Free-standing enclosures FSM-X, FSE, FSM, FSM-O
 - Cooling & heating

DIGITUS BY ASSMANN

The German company **ASSMANN** offers its customers a wide range of solutions under the **DIGITUS** brand name. The portfolio includes components for building high-performance copper and fiber-optic structured cabling systems for commercial buildings and data centers, as well as a wide range of peripheral equipment for organizing comfortable and technologically advanced work in a modern office space. The company has been operating in the telecommunications market for over 50 years. Among its customers are organizations of any field of activity around the world – state enterprises, industrial companies, large corporations and individual offices.

MAIN ACTIVITIES:

- ▶ Equipment for SCS construction
- ▶ Active network equipment
- ▶ Uninterruptible power supplies and portable charging stations
- ▶ Ergonomics of modern office space Digital accessories for PC and home
- ▶ Equipment and accessories for AV systems
- ▶ A wide range of power and information cables, adapters, connectors

DROPSUITE

Dropsuite company specializes in backing up cloud data such as websites, emails. **Dropsuite** products allow you to offer a simple solution for organizing data backup completely based on cloud services. In particular, the Email backup Office 365 product has a convenient integration with the Office 365 service. It will allow you to automate the backup of email and Sharepoint data (including OneDrive) to the **Dropsuite** cloud and, if necessary, not only restore the entire archive, but also find a separate element – a letter or a file from an old archive.

MAIN ACTIVITIES:

OFFICE 365 BACKUP

- ▶ Office 365 backup
- ▶ Exchange backup
- ▶ Sharepoint backup
- ▶ Onedrive backup
- ▶ Team sites backup

G SUITE BACKUP

- ▶ G suite gmail backup

WEBSITE BACKUP

E-MAIL ARCHIVING

IMAP POP BACKUP

ENDPOINT PROTECTOR | by CoSoSys NOW PART OF **netwrix**

ENDPOINT PROTECTOR BY COSOSYS

CoSoSys S.R.L. is a developer of data protection solutions. **CoSoSys'** key product is **Endpoint Protector**, a comprehensive multiplatform all-in-one DLP solution designed for large, medium, and small enterprises. The system eliminates unintentional data leaks, protects against information theft and malware, and offers control over portable devices and storage devices. **Endpoint Protector** has content filtering capabilities for data at rest and in motion, which are based on dictionaries, regular expressions, and machine learning, as well as profiles for data protection regulations such as GDPR, HIPAA, etc.

MAIN ACTIVITIES:

- ▶ Protecting information, blocking or allowing file transfers
- ▶ Scanning of sensitive data
- ▶ Data encryption during transmission by mail or copying to media
- ▶ Management of USB devices and peripheral ports
- ▶ Control and management of mobile devices
- ▶ Simple cloud-based central management of the entire network

EnGenius®

ENGENIUS NETWORKS

EnGenius Networks is a manufacturer of state-of-the-art enterprise network equipment specializing in wireless networks. The company has its own manufacturing facilities in Taiwan, where it also manufactures products for Cisco, Extreme, Ruckus, Fortinet and several others. Attractive pricing policy allows the implementation of high-quality, modern solutions with an optimal price/performance ratio.

MAIN ACTIVITIES:

- ▶ Access points of corporate level of the Wi-Fi 6 and 7 standard
- ▶ Switches with PoE++ support and multi-gigabit ports. With continuous power supply. The built-in point controller for access points does not require additional licensing
- ▶ Free centralized access point management system EzMaster
- ▶ Free cloud management with analytics and visualization extensions

EXCEL NETWORKING

Excel Networking is the number one brand in the SCS market in the UK, offering premium end-to-end infrastructure solutions at an affordable price. The company's staff includes a team of industry experts who ensure that the latest innovations and manufacturing capabilities are implemented to exceed the standards of quality and performance, technical consistency and excellence. All of this, plus a 25-year warranty, makes **Excel Networking** solutions a great option for government, education, finance, and other institutions.

MAIN ACTIVITIES:

COPPER SYSTEMS

- ▶ Category 8
- ▶ Category 7A
- ▶ Category 6A
- ▶ Category 6
- ▶ Category 5e

FIBER-OPTIC CABLE SYSTEMS IN BUILDINGS

- ▶ Universal cable and cords OS2, OM2, OM3, OM4, OM5
- ▶ Connectors ST, SC, LC, FC, SC/APC Connectivity
- ▶ Tool for installation and inspection of optical connections

ENBEAM MTP SOLUTIONS FOR DATA CENTERS

- ▶ Preterminated high density constructions
- ▶ MTP cassettes and cable trunks OM3, OM4, OM5, OS2
- ▶ Cleaning and inspection tool for MTP/LC/SC connectors

FIBER OPTIC SYSTEMS FOR FTTX SEGMENT

- ▶ Micro-cables for blowing OS2 up to 144 fibers
- ▶ Outdoor cables G.657.A2, G.657.B3
- ▶ Ducts/pipes for fiber blowing system 5/7/12/14/16 mm.

- ▶ Splitters, distribution boxes, fiber optic closures

CABINETS AND OPEN RACKS "19"

- ▶ Communication (CR)
- ▶ Server (SR)
- ▶ Colocation (CL)
- ▶ Open racks and organizers (OR)

POWER DISTRIBUTION UNITS

- ▶ Standard
- ▶ Intelligent
- ▶ Modular
- ▶ Desktop

GENIE NETWORKS

Genie Networks is a leader in traffic analysis and security solutions. With an innovative approach to behavioral traffic analysis (NBA), the company has created a powerful cost-effective solution for collecting and analyzing information, solving problems based on data, and protecting networks from attacks.

Among the company's products, the DPI traffic analyzer, event collection and processing systems, and solutions for traffic management and vulnerability analysis are noteworthy. **Genie Networks** also has experience in integrating its solutions with various network devices and software to ensure maximum efficiency and complexity of the solution.

Genie Networks has a customer base in over 40 countries, including major telecommunications companies, banks, government agencies, and large enterprises.

MAIN ACTIVITIES:

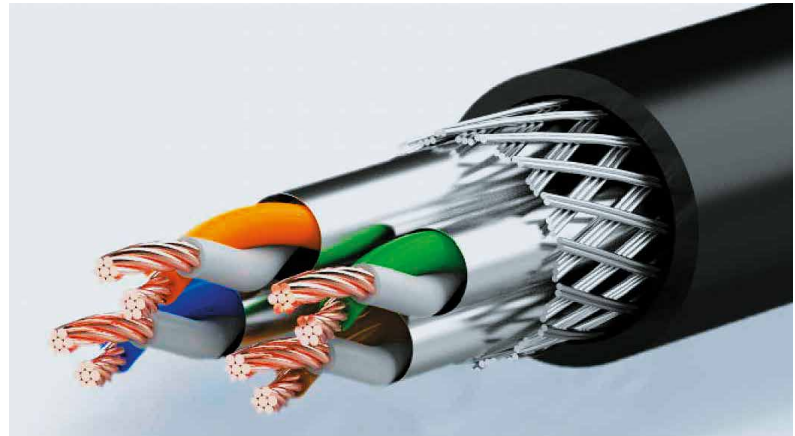

- ▶ GenieATM – In-Depth Traffic Analysis and Instant DDoS Protection
- ▶ GenieATM FLB – Run Your Network Analytics and Security Solutions More Efficiently with Flow Load Balancer
- ▶ GenieATM MSP Server – The One-Stop Managed Service Platform to Enhance Revenue for Service Providers
- ▶ GenieATM Traffic Optimizer – Network Optimization Driven by Smart Traffic Visibility
- ▶ GenieATM Visual Portal – Intuitive, At-a-glance Data Visualizations Tailored to Your Network Demands
- ▶ GenieAnalytics – Smart Network Traffic Exploration by Big Data-Powered Analytics
- ▶ GenieAnalytics Deep Trace – End-to-End Traffic Intelligence from OTT Service, Delivery Network, to Subscriber Identity

HCS CABLING SYSTEMS

HCS Cabling Systems specializes in the development of data cables for SCS. The company's products are made to build reliable and durable cabling systems backed by the **HCS Century Lifetime Warranty**, covering both components and network performance. **HCS Cabling Systems** provides a full range of technical solutions from which customers can choose the right ones for their specific needs while obtaining the best value for money.

The **HCS Cabling Systems** portfolio includes network cabling solutions based on innovative voice, video and data transmission products, a wide range of copper and fiber optic UTP, FTP, SFTP and S-STP products, including backbone and horizontal cables, switching cords, connecting equipment and other products. All components are designed and manufactured in full compliance with all international industry standards.

MAIN ACTIVITIES:

- ▶ CAT copper cabling solutions. 5e, 6, 6A, 7
- ▶ OM3, OM4, OS2 Fiber optic cable solutions
- ▶ Copper and fiber solutions for data centers
- ▶ 19" Cabinets and racks
- ▶ Phy-FiXX Copper and Fiber Managed Cabling Solutions
- ▶ Tools and accessories for cable communication systems installation

HIRSCH

Hirsch, Inc. is a developer of security and identification solutions. The Identiv portfolio includes solutions for physical and logical access control, video analytics and data analytics, contact and contactless smart card readers and reader modules, and RFID-enabled applications. The company's products allow you to protect the entire range of company assets: from the network perimeter to desktop access and from physical objects to IoT devices.

Hirsch solutions are used in a wide range of industries: government, corporate, consumer, education, healthcare, banking, retail and transportation. The company's products are manufactured in a manner consistent with the efficient use of resources and materials, including the protection and preservation of the natural environment.

MAIN ACTIVITIES:

PHYSICAL ACCESS AND VIDEO CONTROL

- ▶ Access Control as a Service (ACaaS)
- ▶ Hardware
 - Hirsch hardware
 - physical access readers
- ▶ Software
 - Hirsch Velocity Software
 - Identiv Connected Physical Access Manager (ICPAM)
- ▶ Software-Driven Architecture
 - Freedom Access Control
 - Liberty Access Control
- ▶ Integrated Systems
- ▶ Telephone entry systems
 - Enterphone Cube

- Enterphone iQ
- Enterphone 19
- Enterphone iQ
- Enterphone™ Kiosk
- ▶ Video and data analytics

LOGICAL ACCESS CONTROL

- ▶ Smart Card Readers
 - contact

- contactless
- mobile
- ▶ uTrust tokens
- ▶ Applications
- ▶ OEM modules

RFID AND NFC SOLUTIONS

IDEMIA

IDEMIA specializes in biometrics, identity verification and digital security. When developing solutions, the company relies on natural, reliable, and persistent features for identity verification: the body's own biometric data, including face, iris, and fingerprints. **IDEMIA** uses proven artificial intelligence (AI) and deep learning algorithms in its products to improve the performance of biometric identification and authentication.

MAIN ACTIVITIES:

BIOMETRIC READERS

iGuana

IGUANA

iGuana offers end-to-end solutions for electronic document management and digital archiving. **iGuana's** complete suite of solutions and services includes electronic document management systems (EDMS), document and archive digitization, document archiving, and professional equipment for digitizing and cataloging a wide range of source materials: from simple files and photo albums to complete collections, ancient folios, atlases, maps and negatives on glass. **iGuana's** solutions are used by libraries, archives, cadastral offices, museums, universities and private organizations in a number of countries around the world.

MAIN ACTIVITIES:

PROFESSIONAL DIGITIZATION OF DOCUMENTS

- ▶ Book (planetary) scanners
- ▶ Microfilm scanners
- ▶ Microfiche scanners
- ▶ Document scanners
- ▶ Art scanners
- ▶ Scanners for cartographic materials
- ▶ Microfilming equipment
- ▶ Specialized software and EDMS

JIANGSU UNITED POWER FRIEND TECHNOLOGY

Jiangsu United Power Friend Technology specializes in the design and manufacture of generator sets. The company's solution portfolio includes open and silent type diesel, gasoline, gas generator sets, container generators, automobile generators, ship generators, etc. **Jiangsu United Power Friend Technology** products are highly reliable, have long service life and are used in various industries.

MAIN ACTIVITIES:

- ▶ Diesel generators
- ▶ Silent generators
- ▶ Portable generators
- ▶ Marine diesel generators
- ▶ High power diesel generators
- ▶ Iveco diesel generators
- ▶ Cummins diesel generators
- ▶ Perkins diesel generators
- ▶ Yanmar diesel generators
- ▶ Lovol generators
- ▶ Deutz generators
- ▶ Mobile lighting towers
- ▶ Brushless generators
- ▶ High performance diesel engines
- ▶ Gas generators

PRODUCT LINE:

MODERN WORKPLACE

- ▶ Teamwork
 - Microsoft Exchange corporate e-mail
 - Microsoft Teams communications, calls and messages
 - Microsoft SharePoint online portal of the enterprise with workflow elements
 - Microsoft 365 and Office 365
 - Microsoft Project Teams collaboration and project management systems
 - MUK cloud services based on Microsoft 365 and Office 365
- ▶ Simple and secure platform
 - Windows 11
- ▶ Data protection + user, device, app and service management
 - Enterprise Mobility and Security

BUSINESS APPS

- ▶ Process and Function Automation
 - Microsoft 365 + Dynamics 365 + LinkedIn

- Power Platform automation of business-critical functions, including sales management, staffing capabilities, operations, customer service, sales agents management

APPLICATIONS AND IT INFRASTRUCTURE

- ▶ Distributed hybrid cloud infrastructure
 - Microsoft Azure core services
 - MUK cloud services based on Microsoft Azure
 - Azure Backup and File Storage
 - Windows Server platforms
 - SQL Server database management systems
 - Disaster Recovery
 - Application Hosting and Management
- ▶ Control systems
 - Microsoft System Center Configuration Manager, IT

MICROSOFT

Microsoft Corporation is a world leader in producing software, providing services and developing Internet technologies for personal computers and servers. The MUK group of companies, as an authorized distributor of **Microsoft**, provides partners with the opportunity to get acquainted with the functionality of products and test solutions based on their own demo laboratory, offers advice from certified technical and licensed specialists, and provides an assessment of the level of maturity of software asset management processes.

- infrastructure change and configuration management system
- Microsoft System Center Operations Manager, a comprehensive tool for monitoring corporate IT infrastructure
- Microsoft System Center Virtual Machine Manager, virtual environment management system
- Microsoft System Center Service Manager, services and systems change and lifecycle management system
- Microsoft System Center Data Protection Manager, backup and recovery system
- ▶ Development tools
 - Microsoft Visual Studio
 - Microsoft Team Foundation Server

DATA MANAGEMENT AND ARTIFICIAL INTELLIGENCE

- ▶ Big data
 - business intelligence with Microsoft Azure + Power BI

MICROSOFT

Microsoft Corporation is a leading provider of cloud services. The company provides the ability to use services to solve business problems, develop, run applications and store data on servers located in distributed data centers. At the moment, there is **Microsoft Azure**, which provides IaaS and PaaS services, and **Microsoft 365** and Office 365, which provide SaaS. The MUK group of companies is an authorized **Microsoft** distributor under the Cloud Solution Provider program.

O365 PRODUCT LINE:

TEAMWORK

- Microsoft Teams
- SharePoint online
- Project online

COMMUNICATIONS

- Exchange online
- Microsoft Teams

SECURITY

- Microsoft Defender
- Microsoft Entra
- Microsoft Intune
- Microsoft Priva
- Microsoft Purview
- Microsoft Sentinel

APPS

- Office Standard (+Access)
- Office ProPlus
- Visio
- Project
- Power BI
- Power Apps

AZURE PRODUCT LINE:

COMPUTING

- Virtual Machines
- App-services
- High-availability clusters
- Azure Virtual Desktop

NETWORK

- Azure DNS
- VPN
- CDN

DATA

- Databases (SQL, MySQL etc)
- Store data
- Back-up, archiving
- Disaster recovery

DEVELOPMENT

- Azure IoT Hub
- Visual Studio
- Business analytics

D365 PRODUCT LINE:

- D365 for Sales Pro
- D365 Enterprise

NEXCONEC

Nexconec is a global leader in high-performance structured cabling systems. **Nexconec** develops high-density, low-loss, pre-terminated fiber optic cabling solutions to support data center infrastructure. The company's products are custom-built and tailored to specific customer projects and operating conditions. With its ISO-9001-certified manufacturing facilities, **Nexconec** produces high-quality products at minimal cost and maximum benefit to its customers.

MAIN ACTIVITIES:

FIBER OPTIC SYSTEMS

- ▶ Patch Cords
- ▶ Multi-Fiber Assemblies
- ▶ MTP/MPO Assemblies
- ▶ Cables
- ▶ Rack Mount Enclosures
- ▶ MTP/MPO Modules and Panels
- ▶ Splitters and WDM
- ▶ Wall Mount Enclosures
- ▶ FTTH Boxes

- ▶ Outdoor Enclosures
- ▶ Fiber Accessories
- ▶ Racks and Cabinets
- ▶ Fiber Testing and Cleaning
- ▶ Outdoor ODVA

COPPER SYSTEMS

- ▶ Cables
- ▶ Patch Cords
- ▶ Power Supplies
- ▶ Patch Panels
- ▶ Connectors

ACTIVE COMPONENTS

- ▶ Media Converters
- ▶ SFP Transceivers
- ▶ SFP+ Transceivers
- ▶ SFP28 Transceivers
- ▶ XFP Transceivers
- ▶ 3G Video SFP
- ▶ QSFP+ Transceivers
- ▶ QSFP28 Transceivers
- ▶ Active Optical Cables (AOC)
- ▶ Direct Attach Copper Cables (DAC)

NEXSAN

NEXSAN

Nexsan is a manufacturer of highly reliable, cost-effective data warehouses tailored to specific requirements and use cases. **Nexsan** products transform traditional storage systems into solutions that deliver business value to customers with additional cloud services, data migration, and unrivaled backup capabilities to protect backups from malware.

MAIN ACTIVITIES:

- UNITY Unified 3rd generation storages
- E-SERIES High Density and Capacity Storage Systems
- BEAST Elite High Density Storage Systems
- ASSUREON secure storages
- All-Flash NVMe VEXATA High performance arrays

PACKETLIGHT NETWORKS

PacketLight Networks is a developer of CWDM/DWDM/OTN solutions for data networks, data centers, data, voice, video storage and other services. The company's portfolio includes products for building a highly efficient infrastructure for DWDM networks. It is a set of carrier-grade solutions featuring high performance, user-friendliness and competitive price.

PacketLight devices are versatile and can be used as part of a WDM infrastructure of any topology: from point-to-point networks to carrier-grade networks with a length of thousands of kilometers.

MAIN ACTIVITIES:

- ▶ All 1 Rack Unit devices
- ▶ 10G~400G solutions (single wave, muxponder)
 - for enterprise networks
 - for metro networks
 - for backbone networks
- ▶ Client support: 10G/40G/100G LAN/8G/16G/32G Fiber Channel/STM-64/OC-192 SDH/SONET/OTU2/OTU2e/OTU3/OTU4/OTN
- ▶ AES 256 based layer 1 data encryption
- ▶ Reconfigurable Optical Add-Drop Multiplexer (ROADM)
- ▶ EDFA optical amplifiers, standalone devices and integrated modules
- ▶ Hardware Link Redundancy
- ▶ Passive optical networks expansion solutions
- ▶ Maximum data transfer density – 96 channels of 200G or 48 channels of 400G

PEPLINK

Peplink is a leading SD-WAN technology provider and a developer of innovative 4G and 5G LTE routers and modems. Peplink provides a full range of solutions for building secure connections, intelligent load balancing, and access to SaaS services for the corporate, industrial and government sectors. The company's solutions are used in a wide variety of industries – hotel business, healthcare, education, trade, financial sector, construction, transportation, etc.

MAIN SOLUTIONS:

- ▶ Enterprise routers
- ▶ Mobile routers
- ▶ Routers for small business and home office
- ▶ Enterprise-grade mobile solutions
- ▶ Wi-Fi and PoE switches
- ▶ Antennas and accessories

QNAP

QNAP Systems Inc. is a leading manufacturer in storage, computing and networking. **QNAP** offers high-quality network-attached storage (NAS), network (network switches) and smart video (QVR Pro) products based on the principles of usability, high security and flexible scalability. **QNAP** is committed to providing end-to-end solutions, from software development, hardware design to in-house manufacturing. **QNAP's** own factory with complete production lines is certified to ISO 9001 Quality Management Systems, ISO 14001 Environmental Management Systems, ISO 45001 Occupational Health and Safety Management Systems, and ISO 27001 Information Security Management Systems.

MAIN ACTIVITIES:

NETWORK-ATTACHED STORAGE (NAS)

- For the corporate segment
- For small and medium enterprises
- For home and office

QVR PRO IP DVRS

- For the corporate segment
- For small and medium enterprises
- For home and office

ETHERNET NETWORK SWITCHES

- Rack Mount
- Desktop

APPLICATIONS

- For network storages
- For IP DVRS

COMPONENTS

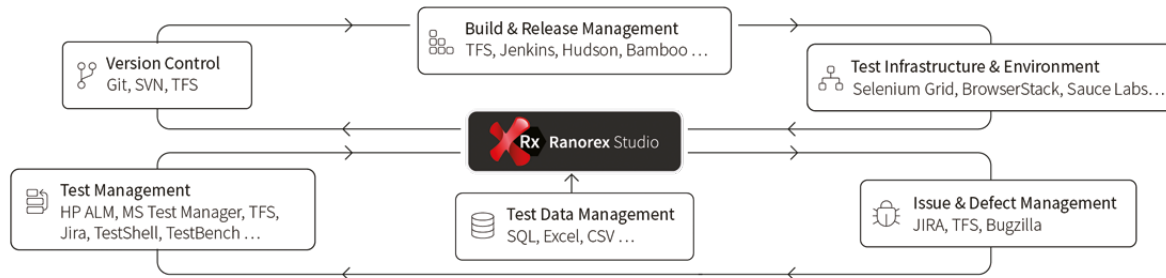

RANOREX

Ranorex's solutions enable software developers to test the interface of their own software products by providing comprehensive tools that can handle even the most complex user interfaces to automate. The flagship product **Ranorex Studio** provides user interface automation for use on various devices – network, mobile, workstations, etc. The functionality of the solution allows to use it for intelligent code completion, refactoring, debugging, as well as to quickly create reliable supported tests. In addition, **Ranorex Studio** is equipped with repositories of reusable objects and test automation modules.

MAIN ACTIVITIES:

- ▶ Ranorex Studio automation of the user interface
- ▶ Ranorex Webtestit Lightweight testing environment
- ▶ Selector generator for Selenium Ranorex Selocity

SANEBOX

SaneBox is a developer of email filtering software. This software helps you to manage email by filtering messages that it considers unimportant into a folder for further processing and allowing you to spend much less time reading them. The solution integrates with IMAP and Exchange Web Services email accounts, works with all email services, and doesn't require any applications to be installed.

The image shows a comparison of an email inbox before and after using SaneBox. On the left, labeled 'Before SaneBox', the inbox is cluttered with 13,678 emails. The list includes: Boss, Annoying Marketer, Newsletter I never read, Spouse, Important Partner, Political campaign, and Facebook notification. On the right, labeled 'With SaneBox', the inbox is clean with only 5 emails: Boss, Spouse, Important Partner, Newsletter I actually read, and Investor. Below the comparison, a dark blue banner states 'Any Email Client, Service or Device' and 'SaneBox works anywhere you check email'. At the bottom of the banner are icons for various email clients and services: Outlook, iCloud, Gmail, Office 365, AOL, Exchange, iCloud, and Apple Mail.

MAIN ACTIVITIES:

SANEBOX EMAIL FILTERING SERVICE

SIEMON

Siemon is a world-renowned designer and manufacturer of network cables, interconnecting devices, passive interconnecting equipment and structured cabling systems for the telecommunications industry. **Siemon's** portfolio includes Category 5e, 6 and 7 copper and fiber optic cabling systems, as well as high-speed networking devices for data centers, healthcare facilities, the automotive industry and other market segments.

MAIN ACTIVITIES:

- ▶ Copper cabling systems
- ▶ Fiber optic cabling systems
- ▶ Patch panels and adapters
- ▶ Racks and cable management
- ▶ Solutions for automated building infrastructure management: Intelligent Buildings
- ▶ Secure industrial connections
- ▶ High Speed Interconnects (HSI)
- ▶ Tools and testers
- ▶ Connection blocks
- ▶ Fiber optic routing systems

TECNOWARE

Tecnoware is an Italian company that designs, manufactures and maintains uninterruptible power supplies that provide uninterrupted electric power supply for personal computers, electro-medical and industrial equipment, data centers, network and telecommunication systems. All **Tecnoware** equipment complies with EU standards and the requirements of the modern world. The company maintains a course of continuous investment in innovation and far-sighted strategic planning.

Tecnoware's portfolio includes line-interactive and synchronous line-interactive UPSs, single and three-phase online UPSs, electrical stabilizers, generators, transformers, batteries and other UPS accessories. The company also offers telecommunication cabinets for floor and wall mounting, power distributors and a range of consumer accessories – chargers for laptops and mobile phones, power banks, fans, etc.

MAIN ACTIVITIES:

- ▶ Line-Interactive UPS
- ▶ Sine wave line-interactive UPS
- ▶ Single-phase online UPS
- ▶ Three-phase online UPS
- ▶ Electricity stabilizers
- ▶ Generators
- ▶ Transformers
- ▶ Batteries
- ▶ UPS accessories
- ▶ Cabinets and accessories
- ▶ Chargers and power banks

Unicon

UNICON

Unicon is a developer of infrastructure management software for user systems. Unicon offers solutions for corporate management of workstations and thin clients. The company's products will be an excellent choice for both small companies and organizations with hundreds or thousands of endpoints.

MAIN ACTIVITIES:

- eLux operating system for Linux-based x86 endpoints
- Scout endpoint management system
- Integrated Scout Cloud Gateway (SCG) solution for connecting endpoint devices operating in remote, distributed environments

Azerbaijan

The MUK Group of Companies started its activity in Azerbaijan in August 2015. The company's portfolio currently includes contracts with manufacturers such as 3Dconnexion, A10, ACTi, Adtran, Advantech, AEG, Altaro, Ametek, APC, AppDynamics, Arista, AudioCodes, Autodesk, Avigilon, Axis, BENQ, Biotech, BIRR, Bitdefender, BitTitan, Black Box, Bluetti, Brickcom, Centerm, Check Point, Cloudbric (Penta Security), Commscope, Conteg, DDN, Dell Technologies, Delphix, Delta, Dropsuite, Elevêo, Endpoint Protector by CoSoSys, EnGenius, Excel Networking, Extreme Networks, Fortinet, Genie Networks, Grandstream, H3C, HCL, HCS Cabling Systems, Hirsch, Hitachi Vantara, IBM, Idemia, iGuana, Image Access, InFocus, Infortrend, Jabra, Juniper Networks, Keenetic, Kingston, Kstar, Legrand, Lenovo, Leviton, Matrix (Guangdong Matrix New Energy), Microsoft, Minkels, Monbat, Nakivo, NetApp, Netwrix, Nexconec, Nexsan, Nvidia, Oracle, PacketLight, Palo Alto Networks, Peplink, QNAP, Radware, Ranorex, Raritan, RCG Power, RSA Security, Ruckus (CommScope), SaneBox, Siemon, Sopar, StarWind, Symantec, Tecnoware, TitanHQ, Unicon, Veeam, Veritas, Vertiv, VMware, YSoft, Zimbra (Synacor).

PRODUCTS AND SERVICES

THE RANGE OF IT DISTRIBUTION ALBANIA INCLUDES:

- Amazon Web Services
- Alibaba Cloud services
- Nexsan data storage systems
- Avigilon video surveillance systems
- Bitdefender, Endpoint Protector by CoSoSys and TitanHQ security solutions
- EnGenius, PacketLight and Peplink network equipment
- Commscope, Excel Networking, Nexconec and Siemon infrastructure solutions
- Tecnoware power management solutions
- Genie Networks traffic analysis solutions
- Conteg server cabinets
- Bluetti power stations
- Centerm thin and zero clients
- BitTitan migration services
- Dropsuite data backup, archive and recovery solutions

IT DISTRIBUTION ALBANIA PARTNERSHIP BENEFITS:

- The MUK Group of Companies is represented in 19 countries;
- The VAD model allows our partners to receive a whole range of value-added services;
- Quick access to engineers, pre-sales, marketing managers, training and service centers due to the company's unified IT ecosystem;
- Certified specialists with extensive experience in multi-vendor projects;
- Individually provided range of services that allows for flexible pricing;
- Company-owned digital trading platform for automating order placement, provision, management, billing, invoicing, marketing and support;
- Sole distributor of Amazon Web Services in the CIS region;
- Extensive experience in credit risk management and co-financing of transactions;
- Work in local currencies in all countries of presence and hedging of local currency rates;
- Assistance in securing projects and registering in rebate and other channel programs of vendors;
- Marketing support;
- Logistics and order processing 24/7;
- Single entry point for access to all regional product and demonstration warehouses;
- Opportunity to find new markets in the countries of presence;
- Consulting, installation and support of hardware, software and cloud solutions;
- Successful track record and timely fulfillment of commitments to gain the trust of partners in the countries of presence;
- Support for partners in development of their business;
- MUK training center, certified by vendors;
- Own service center with a broad portfolio of professional services;
- Large and multinational team speaking 20 languages;
- Ability to support and implement projects of any complexity and scale;
- Wide range of demonstration equipment for demonstration and pilot installations;
- Products and solutions from major vendors;
- Our architects and engineers have a wide range of certificates for the implementation of various solutions.

Armenia
